Undergraduate Nursing Pre-entry Testing

Numeracy Assessment – Sample Test Paper

This provides you with a sample of questions designed to test your basic numeracy skills as part of the recruitment and selection process for the BSc (Hon’s) Nursing Programme (Adult, Child, Mental Health and Learning Disabilities) offered here at Birmingham City University.

The requirement for this testing has been developed following the Nursing and Midwifery Council (NMC) (2010) standards for pre-registration nursing education. Standard 3 of the NMC (2010) publication details the selection and admission process to ensure an open and fair process for all candidates applying for pre-registration nurse training.

On your interview day this numeracy test will be undertaken electronically thus also demonstrating your basic IT skills.

Good luck

Sample Numeracy Test

There are two tests for you to undertake for your numeracy assessment. The first test consists of 6 questions which you must answer without the use of a calculator. The second test also consists of 6 questions; during this test you must use a calculator when answering the questions. Overall these two tests have been designed for you to demonstrate your skills at:

- addition
- subtraction
- division and multiplication
- use of decimals
- fractions
- percentages and
- the use of a calculator

Good luck
Sample Numeracy Test Without the Use of a Calculator.

There are 6 questions in this numeracy test which have been designed for you to demonstrate your skills at:

- addition
