6	Course Description
	<p>Based within a stimulating and dynamic environment, the School of Jewellery's HND course is unique within the UK and has an excellent reputation within the industry, with our students and graduates employed at all levels, locally and internationally.</p> <p>As an HND student, you will be working on live, collaborative and customer-facing projects, broadening your experience through our industry-focussed curriculum. Working at authentic jewellers' benches, you will develop traditional skills alongside knowledge of contemporary cutting-edge technology.</p> <p><b>What's covered in the course?</b></p> <p>Our course will immerse you in the world of jewellery and silversmithing as you create pieces in precious and non-precious metals. You will produce pieces by hand and by mechanical means, with a particular focus on manipulating metal.</p> <p>The practical, design-led nature of the course gives you plenty of opportunity for hands-on workshop experience to hone your skills. You'll develop practical experience of materials and tools, alongside techniques in drawing and model making to develop your design processes.</p> <p>You'll have access to the latest equipment such as laser welders and 2D and 3D CAD software packages, as well as casting and plating workshops.</p> <p>Dedicated staff with professional experience will offer advice, support and industry contacts. You'll be encouraged to enter national and international competitions, and you'll also have fantastic opportunities to work on live projects with industry.</p> <p>Field trips and study visits add colour and relevance to your studies, and support an understanding of commercial jewellery manufacturing environments.</p> <p>You'll study at our internationally-renowned School of Jewellery, in the heart of Birmingham's famous Jewellery Quarter, where much of today's jewellery is still made. The historical facade of our Vittoria Street building conceals a contemporary environment, including workshops, a specialist library, a state-of-the-art technology hub, an atrium gallery and an exhibition space.</p>

### 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

#### Level 4

##### Workload

##### % time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	336
Directed Learning	624
Private Study	240
<b>Total Hours</b>	<b>1200</b>

##### Balance of Assessment
