6	Course Description
	<p>Looking for a foundation course in business management in Birmingham? Our BA (Hons) Business Management with a Foundation Year course has lower entry requirements and can lead to a full undergraduate qualification.</p> <p>This course has been specifically designed to allow home and EU students, who do not initially meet the Birmingham City University entry requirements for our standard Business management degree, to undertake additional level 3 study designed to ensure they are successful on their chosen degree course.</p> <p><b>What's covered in the course?</b></p> <p>Business and Management are broad subjects, widely recognised and highly regarded by employers for the skills and knowledge they give to graduates. Business focuses on operations and functions while management explores the concepts, theories and practices which have an impact on organisational success.</p> <p>At Birmingham City University we have combined the essential elements of these subjects into BA (Hons) Business Management - a broad-based degree which prepares you for a range of exciting careers. You will explore how organisations evolve, how they grow, why they change and how they survive and flourish. Coupled with this you will develop and practise the competencies managers need to make this happen.</p> <p>Three things make BA (Hons) Business Management distinctive. Firstly, you gain an understanding of business operations including Human Resources, Marketing, Consultancy, Finance, Strategy, Logistics and Supply Chain, coupled with the knowledge and ability to engage, lead and develop people.</p> <p>Secondly, research tells us employers want graduates who, in addition to knowledge, have attributes and attitude appropriate to a professional environment. We have addressed this with a theme of management development running throughout Business Management to ensure you will graduate with both a good degree and the competence to start, maintain and thrive throughout your career.</p> <p>Thirdly, a key part of studying Business Management is learning about the 'real world' context so you will explore corporate responsibility, ethical operations, the use and management of social media and technology, and internationalisation in our post-Brexit/Global world.</p>

## 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.
