6	Course Description
	<p>Prepare yourself for a successful career in Stage Management by studying at Royal Birmingham Conservatoire. Our BA (Hons) Stage Management degree provides in-depth, practical training; we aim to produce confident graduates who are ready for a successful career in the industry as soon as they leave us. You'll gain authentic industry experience while developing the vital skills needed in each role of a stage management team.</p> <p>What's covered in the course? Our three-year course provides you with a thorough understanding of all aspects of stage management. You'll also develop an understanding of the core skills in technical theatre and the design elements, widening your knowledge and ability to work in the fast-paced, demanding environment of stage management and further afield. During your degree you'll explore all areas of theatrical performance production. Concentrating on the stage management technical and logistical aspects, your studies will also investigate lighting and sound, wardrobe, set design, props sourcing, maintenance, and the management and organisation of touring theatre. You'll also widen your skills base, developing an awareness of the administration and funding of events and small theatre companies as well as the context of theatre today.</p> <p>At Birmingham Conservatoire we have a vibrant, energetic and stimulating environment. You'll be taught by our team of highly skilled and experienced staff, who also continue to work with industry. Learn through practical experience You'll be expected to engage in a variety of professionally focused roles which will challenge you to grow as a creative practitioner. Taking on the essential duties of Assistant Stage Manager (ASM) in your first year of study, Deputy Stage Manager (DSM) in the second year, and Stage Manager in the final year, you'll learn through experience, framed by theoretical study. Through a series of practical and theoretical lectures, seminars and workshops you'll discover the disciplines needed to confidently and successfully bring scripts from page to stage.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.
