

Destinations of UK-domiciled full-time first degree 2017-18 qualifiers, by provider

- This table contains data on the destinations of UK-domiciled full-time first degree qualifiers reported in Graduate Outcomes survey responses 15 months after leaving higher education in 2017-18. Progression rates are calculated based on the proportions of respondents engaged in any of the following activities: Professional employment, further study, retired, caring for someone, travelling.

- **This data is experimental** and should be considered alongside the research report 'Projected completion and employment from entrant data (Proceed)'.
Further detail and contextual information can be found by expanding columns, using the '+' button above column Q or the '2' button in the top-left of the sheet.

- **Further detail and contextual information can be found by expanding columns**, using the '+' button above column Q or the '2' button in the top-left of the sheet.

- Data shown as '-' has been suppressed according to the suppression strategy outlined in the technical notes. Data shaded grey indicates that the data is at an increased risk of response bias due to a low response rate to the Graduate Outcomes survey, so extra caution should be taken in these cases.

Graduate destinations by provider

UKPRN	Provider name	Populations				Progression rate	
		Number of qualifiers	Number who responded to the survey	Response rate (%)	Response rate below 50%?	Progression rate (%)	Standard deviation
1000163	AEGC University College	10	10	-	-	-	-
