

Destinations of UK-domiciled full-time first degree 2017-18 qualifiers, by subject (sector)

- This table contains data on the destinations of UK-domiciled full-time first degree qualifiers reported in Graduate Outcomes survey responses 15 months after leaving higher education in 2017-18. Progression rates are calculated based on the proportions of respondents engaged in any of the following activities: Professional employment, further study, retired, caring for someone, travelling.

- **This data is experimental** and should be considered alongside the research report 'Projected completion and employment from entrant data (Proceed)'.
- **Further detail and contextual information can be found by expanding columns**, using the '+' button above column P or the '2' button in the top-left of the sheet.

- Data shown as '-' has been suppressed according to the suppression strategy outlined in the technical notes.
