

HEALTH AND SOCIAL CARE MINI LECTURES

ALL

Faculty of Health, Education and Life Sciences

This presentation provides an overview of the faculty of Health, Education and Life Sciences at Birmingham City University. It outlines the courses that are taught within the faculty, including opportunities for work experience, study methods, graduate employability and specific entry requirements.

Healthcare courses at BCU

Our NHS is full of amazing personnel from a wide variety of academic backgrounds. Our School of Health Sciences is a leading provider of pre-registration courses, from Diagnostic Radiography, to Speech and Language Therapy and Biomedical Sciences. This talk highlights a number of less well known, but no less important, careers in healthcare.

CONDUCTIVE EDUCATION

Become an expert practitioner in Special Education Needs and Disabilities (SEND)

Find out how you can transform the lives of children and adults with special needs and disabilities through conductive education. Students can explore the role of a professional conductor and discover how best to enable individuals with neurological motor disorders to learn and succeed without limits.

SPEECH AND LANGUAGE THERAPY

Studying speech and language therapy at BCU

Speech and language therapists support people of all ages who have communication and/or swallowing difficulties. This session introduces your students to the fundamental principles in speech and language therapy, including many of the techniques used on a daily basis and the variety of disabilities that might be encountered.

Session dates are negotiable. For further information or to book, please get in touch [here](#)
