

Module Specification

Module Summary Information

1	Module Title	Wound Care Theory and Practice
2	Module Credits	20
3	Module Level	LEVEL 7
4	Module Code	LBR7527
5	Semester Taught	1

6	Module Overview
<p>Wounds are a significant cause of morbidity and mortality as well as significant risk to global health care economies. The module aims to further develop your understanding of the key concepts of the wound healing process and how numerous factors can negatively affect the normal sequence of events. You will have the opportunity to critically reflect on the evidence-based principles underpinning wound management and explore the literature that currently guides practice. Interdisciplinary principles and practices of wound care management will be explored. By fully engaging in this module, you will have the opportunity to develop your critical analysis, evaluation and synthesis skills and the skills necessary to foster lifelong learning within this challenging field.</p> <p>This module is aimed at predominantly graduate healthcare practitioners who wish to explore the theory and practice of wound care.</p> <p>This module is a core Level 7 Tissue Viability pathway module which can also be taken as an optional module for other pathways or as a stand-alone module and is aimed predominantly at Graduate Health Care Practitioners.</p> <p>This module aligns with the Professional Practice Programme philosophy and is designed to be flexible and practice-led. You will have the opportunity to develop skills of enquiry, reflection and problem solving. A blended learning approach is taken in line with the university's learning and teaching strategy. You will be encouraged to think critically and share practice experiences with your fellow students, as well as engaging in both directed and self-directed learning activities. You will be an active partner in your own learning and development and in return you will receive regular feedback and feedforward aimed at developing your academic skills, and have the opportunity to discuss your progress with the module team.</p>	

7	Indicative Content
<p>Introduction to the module Academic skills Introduction to the library Overview of skin anatomy and functions of the skin Anatomy and physiology of normal wound healing Factors affecting wound healing Principles of holistic wound assessment Infection and wound healing Wound management – dressings and other therapies Evidence based practice in wound management Pain assessment and management in relation to wound care Acute wounds – aetiology and management principles Chronic wounds – aetiology and management principles Palliative care wounds Psychological/Quality of life issues of living with a wound</p>	

8		Module Learning Outcomes
On successful completion of the module, students will be able to:		
1	Utilising academic skills, retrieve and apply appropriate evidence and knowledge to formulate critical debate required at level 7.	
2	Construct a critical examination of the process of normal wound healing.	
3	Evaluate and synthesise the current options for wound management relating to a specific wound type.	
4	Critically reflect on practice in your area regarding the care of the patient with a wound.	

9				Module Assessment
	<i>Coursework</i>	<i>Exam</i>	<i>In-Person</i>	
Learning Outcome Number <i>(from table 8)</i>	Coursework	Exam	In-Person	
1,2,3,4	100%			

10			Breakdown Learning and Teaching Activities
Learning Activities	Hours	Details of Duration, Frequency and other comments	
Scheduled Learning (SL) includes lectures, practical classes and workshops as specified in timetable	32	x four 7.5 hour study days delivered online X two 1 hour optional group tutorials via MS teams	
Directed Learning (DL) includes placements, work-based learning, peer group learning external visits, on-line activity, Graduate+, peer learning, as directed on VLE	15	Online activities – workbooks, pre session work, database searching activity.	
Private Study (PS) includes preparation for exams	153	Preparation for end point assessment, reading, accessing resources and links on Moodle	
Total Study Hours:	200		

11		Key Texts and Online Learning Resources
		Nix, D. and Bryant, R, (2016) <i>Acute and Chronic Wounds. 5th ed.</i> St Louis: Mosby Elsevier

Baranowski, S. and Ayello, E.A. (2020) *Wound Care Essentials Practice Principles*. 5th ed. China: Wolters Kluwer

Greenhalgh, T. (2019) *How to read a paper*. 6th ed. Chichester: BMJ Books
