|----------|------------------------|---|
| 1 | Module Title | Understanding and managing behaviours of self, teams and organisations. |
| 2 | Module Credits | 20 Credits |
| 3 | Module Level | LEVEL 7 |
| 4 | Module Code | LBR7566 |
| 5 | Semester Taught | Both 1 and 2 |

| | |
|--|------------------------|
| 6 | Module Overview |
| <p>This module is aimed predominantly at graduate health and social care practitioners who wish to benefit from exploring how interpersonal and behavioural skills influence and affect their working life and practice. This module incorporates elements from the Intelligent Behaviour Analytics® Holistic framework and is a unique offering to BCU students within this module. Under the guidance of the module facilitators, you will be able to direct your learning across a range of topics including managing self, relationships with others as well as working in teams and organisations.</p> <p>Understanding behaviour and effectively reading others is not a hit and miss process but a skill which can be learned and then applied into every aspect of work and life. It is a core skill that will influence your professional working life. It contributes to win/win situations and provides the skills to deal with conflicts before disruptive behaviour is escalated.</p> <p>The way in which people work with one another, manage others and their own behaviour is central to how organisations function; and is an essential area in which health and social care professionals need to develop expertise. This module both augments and underpins the entire range of interpersonal and behavioural skills and applies them to leadership, team working and performance management, negotiation, implementing change or service improvement as well as to day-to-day routines. It is an overlooked but integral part of effective management. People are at the core of almost every business. Understanding personal behaviour and the behaviour of others is therefore essential.</p> <p>The core of effectiveness is a combination of knowledge, skills, attitude and behaviour. Management training and education tends to focus on knowledge and skills. Attitude is assumed, and the study of how to understand, manage and work with different behaviour patterns is largely ignored. The process does not deal in absolutes, but in probabilities based on the evidence available.</p> <p>Throughout this module, you will be encouraged to undertake student led activities and independent study with guidance and facilitation from designated academic support. During the module, you will identify an area, or topic of study that is of interest to you and which you would like to critically review and evaluate, applying and reflecting this to your practice and/or your professional development.</p> <p>The aims of the module are to:</p> <ul style="list-style-type: none"> • Enable you to apply a series of interpersonal and behavioural skills within your work place; • Develop interpersonal skills and behavioural competence for self-management, team working and to enable improvements in the way you practice and deliver services. <p>This module aligns with the Professional Practice programme philosophy and is designed to be flexible and practice led. You will have the opportunity to develop skills of enquiry, reflection and problem solving. A blended learning approach is taken (incorporating both lectures, tutorial and online</p> | |

activities via Moodle) in line with the University's learning and teaching strategy. You will be encouraged to think critically as well as engaging in both directed and self-directed learning activities.

You will be an active partner in your own learning and development and in return you will receive regular feedback and feed-forward aimed at developing your academic and clinical skills, and have the opportunity to discuss your progress with the module team.

7 Indicative Content

Please note that this schedule is indicative and is subject to change for operational and/or educational reasons. Academic staff constantly monitor and review student progress during the teaching period and will make changes to the schedule as appropriate. Any changes will be notified fully to students.

Core content is taught online.

- Students are given an access code to experience the itse® interactive software. This is a critical component to support the learning process for Session 1: Self Understanding.
- Students need to watch approximately 40 bite size lecture videos using the BCU Moodle learning platform.

[Click here](#) to read a poster which includes information about the success of Birmingham City University online teaching.

3 x Interactive Classrooms

- Duration: 3 hours for each classroom
- Accessibility:
 - Delivered in a classroom setting at our City South Campus, Westbourne Rd, Birmingham B15 3TN
 - If students are unable to attend in person, they will be able to join the classroom online
 - All classrooms will be recorded and uploaded onto BCU Moodle so that students can re-watch to support their learning experience

Tutorials (online)

- All students receive 2 x 30-minute individual online tutorials

Session 1: Self-understanding.

Knowing your core beliefs, your strengths, your limitations, your leadership, communication skills and work styles, and how these affect your behaviours. How you learn? Personal resilience.

For students to share their views of a current theory of leadership: most theory and practice of leadership ignores the crucial foundation of behaviour analysis.

- Self-management. Using your knowledge of self to direct your own activities toward achieving goals and creating win/win situations. Support mechanisms.
- Being comfortable in complexity. Understanding complexity in work environments, being open to change, and maintaining mental and intellectual flexibility, tolerance, constructive challenge and managing conflict.
- Maintaining multiple, simultaneous roles. Having the ability to work effectively with those in other roles, and to be credible to others who work in other areas of the organisation.

- Understanding what we cannot influence and developing strategies for this (using different models).
- Critically (academically) appraising leadership approaches, looking for evidence base and generalisability.

Using group work and case studies/simulation scenarios to explore approaches and skills

Session 2: Understanding others

- Knowledge of others. Recognising the behaviour of others, their values and belief and how your behaviours and beliefs affect those around you.
- Developing a culture of learning and knowledge sharing.
- Building team and peer beliefs around quality, safety, effectiveness, and dignity, and shared knowledge of behaviour.
- Building a culture of shared decision making.
- Understanding the client needs.
- Supporting individual responsibility and accountability.
- Applying research, theory, and fundamental principles to your practice.

Session 3: Leading and managing teams

- Communicating and persuading. Having the ability to communicate a compelling vision that is meaningful to others.
- Being able to offer advice and guidance to others, and to model behaviour for others.
- Creativity. Seeing possibilities and new alternatives and new perspectives.
- Managing the interfaces: other teams/senior management/client needs.

Session 4: Organisational culture and climate

- Explore the theories of organisational culture.
- How an organisational culture can affect the motivation of individuals and teams.
- Critique and analyse the elements of a good/poor organisational culture and apply this to your work setting.
- Understanding the local organisation, culture, performance, staff engagement, enablers and constraints.
- Assessing organisational readiness and choosing appropriate leadership strategies.
- Learning from errors (self or others)

Session 5: Complex situations: case studies

- Experiential learning: For students to experience case studies and roles where behaviours of individuals and teams affects the decisions made and outcomes for patients.

| 8 | | Module Learning Outcomes |
|--|--|--------------------------|
| On successful completion of the module, students will be able to: | | |
| 1 | Utilising academic skills, retrieve and apply appropriate evidence and knowledge to formulate critical debate required at level 7. | |
| 2 | Critically appraise individual self-management skills, including an understanding of self that is focused on professional values, character, integrity and creativity in a work-based situation. | |
| 3 | Appraise and evaluate interpersonal skills and behavioural competencies (own and others) to work with, manage and lead teams, understanding the behaviours of groups and group dynamics and use this to influence and improve practice and service delivery. | |
| 4 | To evaluate, explore and apply behavioural approaches with managerial skills and organisational know-how to inform tactics, strategy and establish effective relationships. | |

| 9 | | | | Module Assessment |
|---|------------|------|--------------------------|-------------------|
| Learning Outcome Number (from table 8) | Coursework | Exam | In-Person | |
| 1, 2, 3 and 4 | | | Presentation 100% | |

| 10 | | | Breakdown Learning and Teaching Activities |
|--|--|---|--|
| Learning Activities | Hours | Details of Duration, Frequency and other comments | |
| Scheduled Learning (SL) includes lectures, practical classes and workshops as specified in timetable | 9 hours 1 hour | 3 x 3-hour Classrooms (in person or online) 2 x 30 minute online one-to-one tutorials | |
| Directed Learning (DL) includes placements, work-based learning, peer group learning external visits, on-line activity, Graduate+, peer learning, as directed on VLE | The times below are averages and therefore should be used as a guideline only. Some students may complete the process faster or may take slightly longer. 15 hours 100 hours | Students are given an access code to experience the itse® interactive software. This is a critical component to support the learning process for Session 1: Self Understanding. Approx 40 bite sized videos on Moodle to be watched. Each video contains approximately 2.5 hours of learning | |
| Private Study (PS) includes preparation for exams | 75 hours | Other Self-directed study e.g.: Reading, Consolidation in Practice, Personal learning outcomes and Personal Development Plan (how you intend to achieve the learning outcomes), Referencing and critical analysis skills, IT skills | |

| | |
|---------------------------|-----------|
| Total Study Hours: | 200 hours |
|---------------------------|-----------|
