

Module Specification

Module Summary Information

1	Module Title	Professional Development and Clinical Leadership in Cancer Care
2	Module Credits	20
3	Module Level	7
4	Module Code	LBR7697
5	Semester Taught	2

6 Module Overview

This module is predominantly designed for graduate health care practitioners who wish to expand their knowledge, skills, and Professional Development in clinical Leadership in Cancer Care.

It is vital that those who work with patients with cancer are supported with appropriate education and reflective practice, to drive up the quality of care for these patients. This module provides you with the opportunity to develop the core leadership skills and behaviours to care for people affected by cancer, and to provide underpinning cancer knowledge for the workforce.

This module can also be studied as a standalone module. This module is delivered completely online incorporating course teaching material and a variety of learning activities, such as online lectures, forums, quizzes and workshops. You are expected to participate and engage with the module material which is available on the module MOODLE site. The module assessment is an in-person presentation. Tutorial support will be offered via video tutorials, chat forums, email and telephone.

This module aligns with the Professional Practice Programme philosophy and is designed to be flexible, and practice led. You will have the opportunity to develop skills of enquiry, reflection and problem solving. A blended learning approach is taken in line with the university's learning and teaching strategy. You will be encouraged to think critically and share practice experiences with your fellow students, as well as engaging in both directed and self-directed learning activities. You will be an active partner in your own learning and development and in return you will receive regular feedback and feedforward aimed at developing your academic skills and have the opportunity to discuss your progress with the module team.

7 Indicative Content
