

Proceed rates, by subject (sector)

- The projected completion and employment from entrant data (Proceed) rates displayed on this sheet are equal to the projected percentage of 2018-19 full-time first degree starters at the provider who will obtain a degree multiplied by the percentage of the provider's 2017-18 full-time first degree graduates who had progressed into a positive activity after graduation, according to the Graduate Outcomes survey.

- Graduate activities considered positive for this measure are: professional employment, further study, retired, caring for someone, and travelling.

- **This data is experimental** and should be considered alongside the research report 'Projected completion and employment from entrant data (Proceed)'.

- **Further detail and contextual data can be found by expanding columns**, using the '+' buttons above columns H and M or the '2' button in the top-left of the sheet.

- Data shown as '-' has been suppressed according to the suppression strategy outlined in the technical notes.

Proceed by subject (sector)

CAH2 subject code	Subject name	Completion		Graduate Outcomes			Composite measure (Proceed)	
		Projected to obtain a degree (%)	Standard deviation	Progression rate (%)	Standard deviation	Response rate below 50%?	Proceed (%)	Standard deviation
