

**Proceed rates, by subject within provider**

- The projected completion and employment from entrant data (Proceed) rates displayed on this sheet are equal to the projected percentage of 2018-19 full-time first degree starters in the subject at the provider who will obtain a degree multiplied by the percentage of the provider's 2017-18 full-time first degree graduates from the subject who had progressed into a positive activity after graduation, according to the Graduate Outcomes survey.

- Graduate activities considered positive for this measure are: professional employment, further study, retired, caring for someone, and travelling.

- This data is experimental and should be considered alongside the research report 'Projected completion and employment from entrant data (Proceed)'.

- Further detail and contextual data can be found by expanding columns, using the '+' buttons above columns K, Q and U or the '-' button in the top-left of the sheet.

- Data shown as '-' has been suppressed according to the suppression strategy outlined in the technical notes. Data shaded grey indicates that the data is at an increased risk of response bias due to a low response rate to the Graduate Outcomes survey, so extra caution should be taken in these cases.

**Proceed by subject within provider**

UKPRN	Provider name	CAH2 subject code	Subject name	Completion		Graduate Outcomes			Composite measure (Proceed)	
				Projected to obtain a degree (%)	Standard deviation	Progression rate (%)	Standard deviation	Response rate below 50%?	Proceed (%)	Standard deviation
