6	Course Description
	<p>Each route has its own webpage:</p> <p>Fashion Design</p> <p>Textile and Surface Design</p> <p>These MA fashion and textile courses bring together craftspeople, artists and designers with an interest in studio- and workshop-based practice. The diverse student group has the common desire to reflect upon and enhance their knowledge, understanding and skills in their own particular area of specialisation and interest. We hope the changing nature of the creative sector, and the ability of the student group to draw on a wide set of cultural references and experiences will make this a highly involving and stimulating course for you. The staff represents a strong combination of academic, research and professional practice backgrounds.</p> <p>In addition to the MA staff team providing subject expertise, you will attend a rich course of guest speakers representing a broad range of roles from the Fashion and Textile Industry. These distinguished practitioners and professionals share their personal experiences and global perspectives in various fashion and textile design roles that are relevant to your career. This will inform you of global perspectives of your discipline, develop your subject knowledge, and cultivate your critical comprehension of the subject. You will have exclusive access to personal dialogues with our course of Industry visitors. This group and one to one involvement with Industry experts is an experience from which you as an individual or the whole group can learn.</p> <p>The Course philosophy addresses the increasing importance of analytical skills and your ability to think and act tactically. The critical environment that you are introduced to, strongly and consciously encourages your awareness of the relevance and purpose of your activities and how they align to a medium-term, career or lifestyle perspective. This encourages you to think and behave in a professional manner and have some sense of purposefulness. In essence, through the acquisition of knowledge and experience, you develop a 'self-help' attitude and a 'self-diagnostic' approach to your practice.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 7

Workload

% time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	340
Directed Learning	1070
Private Study	390
Total Hours	1800

Balance of Assessment

Assessment Mode	Percentage
Coursework	95%
Exam	
In-Person	5%
