6	Course Description
	<p>The principal aim of our Postgraduate Diploma in Music course is to enable a period of focus on your Principal Study, so that you can graduate as a more assured practitioner, and to supplement that advanced training with knowledge and skills in complementary areas relevant to your professional development.</p> <p>You will thus graduate better prepared to address the challenges involved in becoming a professional musician in the twenty-first century, whether you enter the profession straight away, or after a further period of study.</p> <p>A distinctive feature of Royal Birmingham Conservatoire's postgraduate provision is that it will give you the opportunity to make choices within your course directly relevant to your future career aspirations, both within your Principal Study area and in your supporting studies. All routes include a core Career Development module designed to get you thinking about your future professional plans, and a broad menu of optional Professional Development modules designed to help you work towards achieving your personal career aspirations.</p> <p>You will have the opportunity to study in one of several Principal Study areas, all of which also offer the option to study at MMus level.</p> <p>Instrumental Performance (MMus, PgDip, PgCert) This specialism prepares you for a solo, chamber or orchestral career. It is available to students pursuing orchestral instruments, keyboard instruments and other solo instruments such as recorder, guitar, and saxophone, with a route also offered for bowed string and guitar ensembles. We also welcome instrumentalists and singers who are developing fusions of folk music with other genres, students wishing to focus on songwriting, and woodwind players who do not wish to follow the traditional orchestral route but would prefer to pursue a career as a multi-instrumentalist in musical theatre.</p> <p>Vocal Performance (MMus, PgDip, PgCert) This route offers advanced-level training in singing. You're encouraged and enabled to increase your experience as a performer and to broaden your repertoire, though you can also take the opportunity to specialise if you wish. You'll enjoy regular opportunities to sing in a variety of contexts, both as a soloist and in ensembles with other performers.</p>

Orchestral Performance (Strings) (MMus, PgDip)

Developed in partnership with the [City of Birmingham Symphony Orchestra](#) (CBSO), this route is for advanced level string players considering professional orchestral auditions and on the brink of a professional career. You will spend a significant amount of rehearsal time in the CBSO alongside one or more dedicated host players who will act as mentors. You may also be offered opportunities to play at the back of the section to gain further experience. In addition to developing your technical facility, musicianship, interpretative skills, and stylistic awareness, you will expand your knowledge of orchestral repertoire, learn how to prepare for rehearsal in the most efficient way, develop strategies which will help you to integrate within your section, and build confidence in preparing for orchestral auditions.

Conducting (MMus, PgDip)

We offer the following:

- Brass Band Conducting
- Choral Conducting
- Orchestral Conducting

All our conducting pathways offer the technical training, collaborative opportunities, and podium time necessary to help you prepare for a career as a professional conductor. You will spend considerable time developing your directing techniques in rehearsals and will also have opportunities to demonstrate your skills in performance. In addition to attending and participating in scheduled ensemble activities, you will be encouraged to explore other opportunities to engage as conductor or observer. Students across all three pathways will also attend classes/workshops of their peers studying other conducting specialisms.

Jazz (MMus, PgDip, PgCert)

Designed for recent graduates and suitably qualified mature students, these programmes provide high quality advanced-level tuition, enabling you to specialise either as a Jazz performer or instigator. You will benefit from regular individual specialist tuition from professional jazz musicians active on today's scene. There will be an emphasis on the art of improvisation as well as regular opportunities to rehearse and perform with small and large jazz ensembles.

Experimental Performance (MMus, PgDip, PgCert)

Designed for emerging arts practitioners, this route provides you with a unique opportunity to undertake independent artistic projects in a fully supportive environment. Practitioners from a variety of disciplines (including, but not limited to, instrumental/vocal performance, composition, dance, choreography, theatre, visual and performance art, and creative writing) come together with likeminded people. The core of your study will be formed by your own artistic ideas, which are developed, through research and dialogue, into professional practical projects.

Composition (MMus, PgDip, PgCert)

Our composition route actively celebrates the diversity of today's musical genres, and fosters artists who challenge, innovate, and transform notions of artistic practice today. You'll spend most of your time writing music for professional and student ensembles, whether you choose to respond to our set briefs or work on your own projects. You'll be encouraged to express yourself in multiple musical and artistic genres. By studying composition within a thriving conservatoire setting, you'll have excellent opportunities to collaborate with performers and to have your works performed.

Music Technology (MMus, PgDip, PgCert)

This pathway offers an exciting opportunity for composers and composer-performers to experiment with and develop expertise in the creative application of established and new music technologies.

You will be based in our £57-million Conservatoire building, which features our Concert Hall, 150-seat Recital Hall, more than 70 practice rooms, ensemble rooms and workshops, seven recording studios, editing, and mastering suites, and our black-box performance space known as The Lab. All our spaces are acoustically designed to provide a world-class music-making environment.

We also benefit from being part of Birmingham City University's Faculty of Arts, Design and Media, which provides many opportunities for collaboration and interdisciplinary projects.

Full-time Year 1

Semester 1	Semester 2
Principal Study 1 (60 credits) [CORE] [Specific module will be determined by the pathway]	
Career Development (20 credits) [CORE]	
Professional Development Option (20 credits) [OPTION]	
Professional Development Option (20 credits) [OPTION]	

There is some room for negotiation in how the course unfolds for a part-time PgDip student over two years. The following example provides a guide:

Part-time Year 1

Semester 1	Semester 2
Career Development (20 credits) [CORE]	
Professional Development Option (20 credits) [OPTION]	
Professional Development Option (20 credits) [OPTION]	

Part-time Year 2

Semester 1	Semester 2
Principal Study 1 (60 credits) [CORE]	

While Principal Study activities will be ongoing from the start of the course, we would expect the Principal Study 1 module to be taken in the second year. The Career Development module should normally be taken in the first year.

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 7

Workload

% time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	284
Directed Learning	676
Private Study	240
Total Hours	1200

Balance of Assessment

Assessment Mode	Percentage
Coursework	50%
Exam	
In-Person	50%
