6	Course Description
	<p>Whatever your interests, our MA Musicology course gives you the unique opportunity to pursue your own research project within a lively and exciting Conservatoire environment. Our flexible postgraduate course enables you to mould a course of study to your own needs and aspirations and may be approached as preparation for a research degree in music.</p> <p>It is important that a musicologist also develops complementary skills and/or knowledge outside their specialism which will help equip them for a future career: professional musicologists typically find themselves, amongst other things, teaching, managing and administering; some even maintain parallel careers as professional performers or composers.</p> <p>Therefore, we provide you with a choice of Professional Development Options (shared across our postgraduate courses) alongside your musicological work to give you the opportunity to develop and/or expand your interests across a range of complementary areas.</p> <p>The Conservatoire team, which comprises a large number of research-active staff, has a vast array of expertise, allowing us to supervise a wide range of projects, and we are particularly keen to attract those interested in pursuing Masters-level research in our specialist areas. These include: Late Medieval Music; French Music of the 17th, 18th and 20th centuries; Italian Baroque Music; 18th and 19th Century British, Russian or Austro-Germanic Music; Contemporary Film and Television Music; Theory and Analysis; 20th-Century Music Theory and Analysis; and Music Critics and Criticism. Royal Birmingham Conservatoire also hosts a significant collection of historical instruments and we welcome studies with a focus on performance practice and/or critical editing.</p> <p><b>Recent research projects include:</b></p> <ul style="list-style-type: none"> <li>• An Exploration of Music Performance Anxiety in a Conservatoire Woodwind Department.</li> <li>• The Music of Hans Zimmer, US Military Intervention and "The Other" in Film; the Sound of the Ungrievable.</li> <li>• Easy Listening: Jerry Lanning and the BBC Radio Orchestra 1979-81.</li> <li>• The Emergence and Evolution of the Piano Study in the Years 1797-1837.</li> <li>• Voices from a Non-Place: An Investigation into Language, Space and the Sung Voice.</li> <li>• The Lute and Non-Nobility in Elizabethan England.</li> </ul>

- Alexei Stanchinsky (1888-1914): Context and Influences.
- Clara Schumann as Pedagogue.
- Italian Film Music During the 1930s: Political Appropriation and Socioeconomic Agendas.
- Constructive or Destructive? Assessing the Impact of Feedback in Instrumental Piano Lessons.
- Irish Rebel Music 1969-1995: Appropriation and Hidden (?) Agendas.

Our MA Musicology course can be studied as a standalone course, but it is also intended to help prepare you for a research degree.

### **What's covered in the course?**

Most postgraduate conservatoire degrees are focused on performance or composition, and don't cater for musicologists. This is not the case at Royal Birmingham Conservatoire, where this course provides you with the opportunity not only to develop your skills as a musicologist, but to supplement them with complementary studies unique to a Conservatoire environment. Your own research project will be at the heart of your course, and alongside this you will choose from the Conservatoire's menu of postgraduate Professional Development options, which will allow you either to hone your skills in complementary areas, or to develop and expand your interests, providing the opportunity to interact and network with fellow musicians and a range of staff, as well as enjoying the excellent facilities the Conservatoire boasts. You will benefit from the Conservatoire's excellent library resources, as well as the opportunity to get involved with our performance departments, and our wider research community of students and staff through seminars, study days, social activities and other events.

### **Core Modules**

The core modules on the MA Musicology course are designed to underline the course philosophy, equipping you with the essential skills required of a musicologist in the 21<sup>st</sup> Century. While they have been designed to complement one another holistically, allowing skills and knowledge developed in one to inform and be utilised in another, and likewise for the taught sessions and tutorials to support more than one module, the specific focus of each ensures that you develop a different skill-set in the 'armoury' of the professional musicologist. Underpinning them all is the ongoing development of specialist knowledge, expertise and research skills in your chosen area. However, specifically, the 'Concepts' module contributes to your acquisition of a comprehensive knowledge of musicology as a discipline; the 'Proposal' module enables you to develop essential skills in constructing a project proposal; the 'Conference Paper' module provides invaluable training in presenting your research in this professional context; and the 'Dissertation' module represents the culmination of your studies, demonstrating your ability to present a completed research project. The development of skills in these distinctive areas is essential in enabling you to advance your expertise as a musicologist beyond the course, and especially if you are planning to pursue a future career in this area.

### 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

#### Level 7

#### Workload

##### Time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	273
Directed Learning	1167
Private Study	360
<b>Total Hours</b>	1800

#### Balance of Assessment

Assessment Mode	Percentage
Coursework	85.7%
Exam	
In-Person	14.3%
