

## Course Specification

Course Summary Information		
1	<b>Course Title</b>	MSc Finance
2	<b>Course Code</b>	PT1500
3	<b>Awarding Institution</b>	Birmingham City University
4	<b>Teaching Institution(s)</b> (if different from point 3)	
5	<b>Professional Statutory or Regulatory Body (PSRB) accreditation</b> (if applicable)	

6	Course Description
	<p>With an array of contradictory information, the financial world and the capital markets specialists provide critical and innovative analysis of business and financial data to make short and long-term financial decisions. Thus at postgraduate level the study must be integrative, blending economic, mathematical and financial theory with analytical approaches to solve complex problems and implement solutions. Finance must also be treated as international in context to ensure its relevance in the global economy.</p> <p>The MSc Finance degree at Birmingham City University represents an ideal choice if you wish to pursue a career in financial institutions, private equity or corporate financial management. The course is designed to ensure you gain a well-balanced understanding of modern finance theories and apply your knowledge to practical case studies throughout your learning journey. You will gain a strong command of analytical techniques, computing and research methods for problem solving and develop confidence in the use and presentation of finance arguments in your professional role. The course will give you the core knowledge, skills and confidence necessary to sift through diverse and often complex information, derived nationally and internationally, to make key decisions.</p> <p><b>What's covered in the course?</b></p> <p>In the first stage, you will focus on examining the role of risk management in investment decisions and the need for ethical and regulatory frameworks governing finance. You will also focus on developing a deeper and systematic understanding on how corporate and financial markets work around the world.</p> <p>During the second stage, you will acquire the quantitative skills to analyse and interpret data. You will have a solid understanding on advanced financial strategy and the applications. The necessary analytical, quantitative, communication, and information technology skills will be developed in a process that is expected to enable you to apply those skills in real-life situations by modelling economic relations, and by interpreting finance theories, decisions and business behavior.</p> <p>The final core Research Skills and Dissertation module will strengthen your research skills and apply your developed analytical and numeracy skills, and contribute to providing efficient and effective solutions to business problems.</p> <p>To help you develop the skills that leading employers ask for, and let you see how traders work, we can access Thomson Reuters Eikon in our <i>iCITY Trading</i> room. Moreover, the course also enables you to be confident in the application of industry-specific skills, for example, with the use of platforms such as DataStream with problem-solving approaches having been exposed to</p>

	<p>real-life scenarios through industry guest-speaker workshops. These skills enrich your experience and provide an added advantage in your endeavors to pursue their future professional careers in a highly competitive industry.</p> <p>Based at the University's new campus in the UK's second city, you will live and study in a vibrant environment and engage with local, national and international businesses. You will be taught by highly-qualified, research-active academics with industrial and professional experience.</p>

19	Competently collect, use, validate and interpret data effectively utilising appropriate software packages, carry out econometric tests on financial models.
20	Critically examining the distinctive features of financial institutions, international financial markets and evaluate why the performance of the financial system is relevant to the rest of the global economy.
21	Critically evaluate the relationship between various finance concepts such as risk and return, the impact of national and international contracts and the need for strong corporate governance, regulatory frameworks and financial market regulations.
	<b><i>In addition to level LOs 17-21, award holders of the Master's Degree, students will be able to:</i></b>
22	Critically analyse, interpret and evaluate information within in a limited range of the topics covered in the areas of finance by reviewing the relevant literature.
23	Employ advanced quantitative methodologies undertake in-depth research into complex and specialist areas and arrive at conclusions that are presented in a clear, concise and professional manner.
	<b><i>In addition to level LOs 17-23, of the Master's Degree with Professional Placement, students will be able to:</i></b>
24	Reflect on your current skills, behaviours and attitudes within a professional environment and how you applied these graduate attributes within your placement setting.
25	Critically evaluate how you further developed your professional skillset during the placement and evidence how you have applied these new graduate attributes within your placement setting.
26	Explain corporate social responsibility and sustainable development issues in relation to placement organisation.
27	Communicate your placement learning experience to others via a poster submission or reflective artefact.

14	<b>Course Learning, Teaching and Assessment Strategy</b>
	A variety of different methods of teaching delivery will be used. Small (typically around 25) and larger group (typically around 50) learning environments are used to deliver different levels of

material and interactions. Typically, classes consist of some delivery some reflection and some exercises worked in class. These may involve full class participation via teamwork or they may require individual work.

Before and/or after a session students will have the opportunity to interact via discussion forums on individual topics.

We use the Moodle Virtual Learning Environment extensively on the Course so that online learning materials will be available to support learning sessions in class and independent learning. Your independent learning will be supported by online quizzes as well as by direction to more conventional resources such as e-books and research papers available electronically via the Library webpage.

Assessment will comprise of several types:

Examination or Test – these are used to assess your ability to perform critical analysis of situations from finance and investment point of view under time constraints.

Assignments/coursework/reports – these allow you the opportunity to demonstrate how deep and critical your appreciation of the subjects is. You are given the chance to use independent learning to complement what has been delivered in class.

**15a Level 7:**

***In order to complete this course a student must successfully complete all the following CORE modules (totalling 160 credits):***

Module Code	Module Name	Credit Value
FIN7026	Advanced Corporate Finance	20
FIN7021	Strategic Risk Management	20
FIN7045	Financial Institutions and Regulation	20
FIN7054	Advanced Financial Theories	20
FIN7051	Applied Financial Econometrics	20
FIN7044	Research Skills and Dissertation/Project	60

***In order to complete this course a student must successfully complete at least 20 credits from the following indicative list of OPTIONAL modules.***

Module Code	Module Name	Credit Value
FIN7022	Behavioural Finance	20
FIN7017	Investigating Finance Practice	20
FIN7048	Entrepreneurial Finance	20

**Level 6:**

***In order to qualify for the award of MSc Finance with Professional Placement, a student must successfully complete 180 credits of the Level 7 modules listed above as well as the following Level 6 module:***

Module Code	Module Name	Credit Value
PLA6001	Professional Placement	60

**15b Structure Diagram**

*Please note list of optional modules is indicative only. Students' choice will not be guaranteed for optional modules but a fair and transparent process will be adopted and shared with students.*

*Include a structure diagram for each mode of study. Level 4 is completed as an example including modules which extend the whole year.*

**Level 7: September intake**

<b>SEMESTER ONE: Certificate Stage</b>	<b>SEMESTER TWO: Diploma Stage</b>
Core FIN7026: Advanced Corporate Finance (20 credits) FIN7021: Strategic Risk Management (20 credits) FIN7045: Financial Institutions and Regulation (20 credits)	Core FIN7051: Applied Financial Econometrics (20 credits) FIN7054: Advanced Financial Theories (20 credits)
	Optional FIN7048 Entrepreneurial Finance (20 credits) FIN7022: Behavioural Finance (20 credits) FIN7017: Investigating Finance Practice (20 credits)
<b>Semester THREE: Masters Stage</b> <b>Core</b> <b>FIN7044: Research Skills and Dissertation/Project (60 credits)</b>	

**With Professional Placement**
**Year 2**

<b>Semester One</b> PLA6001: Professional Placement (60 credits)
---

**16 Overall Student Workload and Balance of Assessment**

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable

- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

**Delete years where applicable.**

## Level 7

### Workload

Activity	Number of Hours
Scheduled Learning	324
Directed Learning	540
Private Study	936
<b>Total Hours</b>	1800

### Balance of Assessment

Assessment Mode	Percentage
Coursework	78%
Exam	18%
In-Person	4%
