

## Course Specification

Course Summary Information			
1	<b>Course Title</b>		BSc (Hons) Quantity Surveying with Foundation Year
2	<b>BCU Course Code</b>	<b>UCAS Code</b>	US0712F      K24F
3	<b>Awarding Institution</b>		
4	<b>Teaching Institution(s)</b> (if different from point 3)		
5	<b>Professional Statutory or Regulatory Body (PSRB) accreditation</b> (if applicable)		

6	Course Description
	<p>Want a career in the construction industry? Study our BSc (Hons) Quantity Surveying with Foundation Year degree at Birmingham City University.</p> <p>With our quantity surveyor training, you will work collaboratively with tutors, practitioners, theorists and designers who will equip you with everything you need to help shape the future of the built environment.</p> <p>The Foundation Year course option enables you to study for our BSc (Hons) degree over an extended full-time duration of four years by including a Foundation Certificate (year one of four). The Foundation Certificate provides a broad study programme that underpins the follow-on degree. In order to progress to the next year of your degree, it is necessary to achieve a pass in all of the modules of the Foundation Certificate.</p> <p><b>What's covered in the course?</b></p> <p>Today's construction industry is facing the challenges of globalisation, climate change, demanding clients and a complex regulatory framework. The growing importance of technology and integrated delivery plays an increasingly important role in the industry.</p> <p>This surveying course will give you the skills to deal with these challenges and more. With innovation at the core of the programme, you will learn through creative problem solving and working with our industrial partners. You'll also develop the intellectual and practical competencies required by professional bodies such as the Chartered Institute of Building (CIOB) and Royal Institution of Chartered Surveyors (RICS).</p> <p>You'll leave with a broad knowledge of the legal, technical, managerial, economic, social and environmental aspects of construction projects, and able to confidently manage both commercial and civil engineering projects.</p> <p>This course is taught by experienced staff with a wealth of industry experience. A flexible approach to delivery allows construction professionals to study alongside their professional role.</p> <p>You'll gain expertise in cost management, procurement and quantification skills. You'll also develop expertise in risk management, costing techniques, design economics, buildability,</p>

	procurement, ability to add value and an appreciation of people from different cultural backgrounds and construction disciplines.

<b>7</b>	<b>Course Awards</b>		
<b>7a</b>	<b>Name of Final Award</b>	<b>Level</b>	<b>Credits Awarded</b>
	Bachelor of Science with Honours Quantity Surveying	6	480
	Bachelor of Science with Honours Quantity Surveying with Professional Placement Year	6	600
<b>7b</b>	<b>Exit Awards and Credits Awarded</b>		
	Foundation Certificate Built Environment	3	120
	Certificate of Higher Education Quantity Surveying	4	240
	Diploma of Higher Education Quantity Surveying	5	360
	Bachelor of Science Quantity Surveying	6	420

<b>8</b>	<b>Derogation from the University Regulations</b>
	Not applicable

<b>9</b>	<b>Delivery Patterns</b>		
	<b>Mode(s) of Study</b>	<b>Location</b>	<b>Duration of Study</b>
	Full Time	City Centre	4 years
	With Professional Placement Year	City Centre	5 years
			<b>Code</b>
			US0712F
			US0712FS

<b>10</b>	<b>Entry Requirements</b>
<p>The admission requirements for this course are stated on the course page of the BCU website at <a href="https://www.bcu.ac.uk/">https://www.bcu.ac.uk/</a> or may be found by searching for the course entry profile located on the UCAS website.</p>	

<b>11</b>	<b>Course Learning Outcomes</b>
	<b>Subject-specific knowledge and understanding</b>
<b>Technical</b>	
<b>1</b>	Develop an awareness of key concepts and techniques within the built environment (L3 outcome).
<b>2</b>	Recognise the legal, ethical and practical requirements within the built environment and wider society (L3 outcome).
<b>3</b>	Appreciate professional quantity surveying techniques and best practices relating to quantification and cost management for different project types such as residential and commercial construction and civil engineering at a project level and to company finance at an enterprise level
<b>4</b>	Demonstrate awareness of the relevance and application of alternative construction methods, sustainable construction concepts, novel construction processes and advanced information technologies applied to the construction, and appraise their implications on life cycle cost, risk and decision-making
<b>5</b>	Demonstrate competence in the use of electronic information handling and data processing and analysis software and applications including the use of digital information systems such as BIM and GIS and specialist software for building planning and evaluations.
<b>6</b>	Appreciate and analyse the multidisciplinary and complex nature of the built environment, evaluate the socio-economic, environmental, financial and other management information, political and business contexts influencing the built environment, analyse the impacts of current issues affecting the local, regional and global communities, and develop awareness of risk and a systematic approach to manage it.
<b>7</b>	Demonstrate awareness and understanding of the legal framework that influences the procurement, set up and manage construction and related contracts within the built environment, apply legal principles relating to health and safety and dispute resolution in managing contracts, and exercise appropriate professional integrity in conflicting circumstances
<b>8</b>	Apply quantification and life cycle costing principles in the preparation of pricing documentation and cost advice, appreciate and analyse cost, financial and other project information in cost planning, cost control and risk analysis, and acquire programme-specific practical and professional competencies.
<b>Cognitive</b>	
<b>9</b>	Demonstrate problem solving techniques through the application of theoretical and technical skills (L3 outcome).
<b>10</b>	Locate and analyse from a range of appropriate sources & information to support a coherent argument (L3 outcome).
<b>11</b>	Critically analyse, synthesise and summarise information from a variety of sources and recognise and use appropriate theories, methodologies, concepts and principles from a range of subjects and collect, analyse and integrate several lines of evidence to develop balanced arguments demonstrating critical thinking and synthesis.
<b>12</b>	Plan and design an experiment, investigation, survey or other means to test a hypothesis or proposition and apply knowledge and understanding to address multidisciplinary problems within a local and global context.
<b>13</b>	Demonstrate creativity and innovation and demonstrate awareness of the provisional nature of the facts and principles associated with a field of study with those based on opinion and not supported by sound evidence.
<b>14</b>	Evaluate the importance of entrepreneurship and innovation including the role of intellectual property within the innovation process and awareness of risks of exploitation and the requirement for sustainable processes and outcomes and consideration of rapid and continuing change and development of the subjects and their context and its underlying foundations and principles

<b>15</b>	Devise, plan and undertake field, laboratory or other investigations including those using secondary data in a responsible, sensitive and safe manner, paying due diligence to risk assessment, ethical and data protection issues, rights of access, and relevant health and safety issues.
<b>16</b>	Examine issues of sample selection, accuracy, precision and uncertainty during collection, recording and analysis of data in the field, in the laboratory or collated from secondary sources taking due care to mitigate the difficulties of having incomplete information on which to base decisions.
<b>Communication</b>	
<b>17</b>	Listen and observe attentively, record, evaluate and respond and/or communicate using a wide variety of information sources for example electronic, textual, numerical, verbal, visual/graphical, digital and practical field (site and building) survey based
<b>18</b>	Communicate (individually or as a group) effectively, constructively, and confidently to a variety of audiences using a range of formats and employing appropriate scientific and/or professional discipline specific language
<b>19</b>	Use the internet in a context which recognises its limitations as a means of communication and a source of information.
<b>20</b>	Demonstrate an awareness of legal, effective and safe use of digital and social media and use and interpret digital data and information to inform decision making.
<b>Interpersonal</b>	
<b>21</b>	Manage time, prioritise activities and work effectively as an individual and as part of a group (L3 outcome).
<b>22</b>	Reflect constructively on your own practice and that of others (L3 outcome).
<b>23</b>	Apply quantitative methods to solve practical problems in a general context (L3 outcome).
<b>24</b>	Perform in a manner appropriate to allocated roles and responsibilities and recognise and respect the views and opinions of other team members, participate effectively in a team, set realistic targets and demonstrate willingness to resolve conflict.
<b>25</b>	Develop the skills necessary for self-managed lifelong learning and engagement including for example working independently, effective time management and organisational skills and appreciate the need for professional codes of conduct.
<b>26</b>	Recognise the moral, ethical, social and equality and inclusion issues related to the programme and take up responsibility for their own actions and identify and work towards targets for personal, academic and career development.
<b>27</b>	Develop an adaptable and flexible approach to study and work, be able to identify individual and collective goals and demonstrate the competence, behaviour and attitude required in academic and professional working life, including initiative, reflection, leadership, resilience and team skills.

<b>12</b>	<b>Course Requirements</b>																																																																
<b>12a</b>	<p><b>Level 3:</b></p> <p><i>In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):</i></p> <table border="1"> <thead> <tr> <th>Module Code</th> <th>Module Name</th> <th>Credit Value</th> </tr> </thead> <tbody> <tr> <td>BNV3003</td> <td>Built Environment Context and Practice</td> <td>20</td> </tr> <tr> <td>BNV3006</td> <td>Building Technology</td> <td>20</td> </tr> <tr> <td>BNV3004</td> <td>Foundation Computing</td> <td>20</td> </tr> <tr> <td>BNV3005</td> <td>Quantitative Methods</td> <td>20</td> </tr> <tr> <td>BNV3001</td> <td>Academic and Personal Study Skills</td> <td>20</td> </tr> <tr> <td>BNV3002</td> <td>Independent Practice</td> <td>20</td> </tr> </tbody> </table> <p><b>Level 4:</b></p> <p><i>In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):</i></p> <table border="1"> <thead> <tr> <th>Module Code</th> <th>Module Name</th> <th>Credit Value</th> </tr> </thead> <tbody> <tr> <td>BNV4106</td> <td>Introduction to the Built Environment</td> <td>20</td> </tr> <tr> <td>BNV4103</td> <td>Built Environment Technology 1</td> <td>20</td> </tr> <tr> <td>BNV4108</td> <td>Law</td> <td>20</td> </tr> <tr> <td>BNV4104</td> <td>Integrated Digital Design - Residential</td> <td>20</td> </tr> <tr> <td>BNV4110</td> <td>Professional Environmental &amp; Materials Science</td> <td>20</td> </tr> <tr> <td>BNV4102</td> <td>Residential Quantification &amp; Cost</td> <td>20</td> </tr> </tbody> </table> <p><b>Level 5:</b></p> <p><i>In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):</i></p> <table border="1"> <thead> <tr> <th>Module Code</th> <th>Module Name</th> <th>Credit Value</th> </tr> </thead> <tbody> <tr> <td>BNV5119</td> <td>Procurement</td> <td>20</td> </tr> <tr> <td>BNV5106</td> <td>Cost Management</td> <td>20</td> </tr> <tr> <td>BNV5129</td> <td>Built Environment Commercial Technology</td> <td>20</td> </tr> <tr> <td>BNV5120</td> <td>Integrated Digital Design for Complex Structures</td> <td>20</td> </tr> <tr> <td>BNV5108</td> <td>Commercial Management</td> <td>20</td> </tr> <tr> <td>BNV5107</td> <td>Commercial Quantification &amp; Cost</td> <td>20</td> </tr> </tbody> </table>		Module Code	Module Name	Credit Value	BNV3003	Built Environment Context and Practice	20	BNV3006	Building Technology	20	BNV3004	Foundation Computing	20	BNV3005	Quantitative Methods	20	BNV3001	Academic and Personal Study Skills	20	BNV3002	Independent Practice	20	Module Code	Module Name	Credit Value	BNV4106	Introduction to the Built Environment	20	BNV4103	Built Environment Technology 1	20	BNV4108	Law	20	BNV4104	Integrated Digital Design - Residential	20	BNV4110	Professional Environmental & Materials Science	20	BNV4102	Residential Quantification & Cost	20	Module Code	Module Name	Credit Value	BNV5119	Procurement	20	BNV5106	Cost Management	20	BNV5129	Built Environment Commercial Technology	20	BNV5120	Integrated Digital Design for Complex Structures	20	BNV5108	Commercial Management	20	BNV5107	Commercial Quantification & Cost	20
Module Code	Module Name	Credit Value																																																															
BNV3003	Built Environment Context and Practice	20

BNV5108	Commercial Management	20																																																															
BNV5107	Commercial Quantification & Cost	20																																																															

**Professional Placement Year (optional)**

*In order to qualify for the award of Bachelor of Science with Honours Quantity Surveying with Professional Placement Year, a student must successfully complete all of the modules listed as well as the following Level 5 module:*

Module Code	Module Name	Credit Value
TBC	Professional Placement	120

**Level 6:**

*In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):*

Module Code	Module Name	Credit Value
BNV6119	Contract Practice	20
BNV6121	Civils Quantification and Cost	20
BNV6200	Individual Honours Project	40
BNV6120	Project Management	20
BNV6125	Professionalism & Citizenship	20

**12b Structure Diagram**
**Level 3**

<b>SEMESTER ONE</b>	<b>SEMESTER TWO</b>
<b>Core</b> BNV3003: Built Environment Context and Practice (20 credits) BNV3001: Academic and Personal Study Skills (20 credits) BNV3004: Foundation Computing (20 credits)	<b>Core</b> BNV3006: Building Technology (20 credits) BNV3005: Quantitative Methods (20 credits) BNV3002: Independent Practice (20 credits)

**Level 4 Full Time**

<b>SEMESTER ONE</b>	<b>SEMESTER TWO</b>
<b>Core</b> BNV4103: Built Environment Technology 1 (20 credits) BNV4106: Introduction to the Built Environment (20 credits) BNV4108: Law (20 credits)	<b>Core</b> BNV4102: Residential Quantification and Cost (20 credits) BNV4104: Integrated Digital Design (20 credits) BNV4110: Professional Environmental and Materials Science (20 credits)

**Level 5 Full Time**

<b>SEMESTER ONE</b>	<b>SEMESTER TWO</b>
<b>Core</b> BNV5119: Procurement (20 credits) BNV5129: Built Environment Commercial Technology (20 credits) BNV5106: Cost Management (20 credits)	<b>Core</b> BNV5108: Commercial Management (20 credits) BNV5107: Commercial Quantification and Cost (20 credits) BNV5120: Integrated Digital Design for Complex Structures (20 credits)

**Professional Placement Year 3 (optional)**

**Professional Placement Module 120 Credits**

**Level 6 Full Time**

<b>SEMESTER ONE</b>	<b>SEMESTER TWO</b>
<b>Core</b> BNV6125: Professionalism and Citizenship (20 credits) BNV6120: Project Management (20 credits)	<b>Core</b> BNV6121: Civils Quantification and Cost (20 credits) BNV6119: Contract Practice (20 credits)
BNV6200: Individual Honours Project (40 credits)	

## 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

### Level 3

#### Workload

##### % time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	288
Directed Learning	432
Private Study	480
<b>Total Hours</b>	<b>1200</b>

#### Balance of Assessment

Assessment Mode	Percentage
Coursework	87%
Exam	8%
In-Person	5%

### Level 4

#### Workload

##### % time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	288
Directed Learning	394
Private Study	518
<b>Total Hours</b>	<b>1200</b>

#### Balance of Assessment

Assessment Mode	Percentage
Coursework	86%
Exam	0
In-Person	14%

**Level 5**
**Workload**

**% time spent in timetabled teaching and learning activity**

<b>Activity</b>	<b>Number of Hours</b>
Scheduled Learning	288
Directed Learning	390
Private Study	522
<b>Total Hours</b>	<b>1200</b>

**Balance of Assessment**

<b>Assessment Mode</b>	<b>Percentage</b>
Coursework	100%
Exam	0
In-Person	0

**Level 6**
**Workload**

**% time spent in timetabled teaching and learning activity**

<b>Activity</b>	<b>Number of Hours</b>
Scheduled Learning	324
Directed Learning	308
Private Study	568
<b>Total Hours</b>	<b>1200</b>

**Balance of Assessment**

<b>Assessment Mode</b>	<b>Percentage</b>
Coursework	100%
