6	Course Description
	<p>Want to enter the exciting world of property? Discover our BSc (Hons) Real Estate with Foundation Year course. This degree is for you if you are interested in the study of the built environment and in the acquisition, disposal, management and valuation of land and buildings.</p> <p>The Foundation Year course option enables you to study for our BSc (Hons) degree over an extended full-time duration of four years by including a Foundation Certificate (year one of four). The Foundation Certificate provides a broad study programme that underpins the follow-on degree. In order to progress to the next year of your degree, it is necessary to achieve a pass in all of the modules of the Foundation Certificate.</p> <p>What's covered in the course?</p> <p>You will gain a detailed understanding of real estate, alongside learning to make an expert analysis of the processes of its ownership, development, occupation, valuation and management. You'll also examine economics and finance, property valuation and management, development, construction, urban planning and law, ensuring you are equipped with the attributes you'll need for a successful career.</p> <p>The course integrates technological, financial, legal and management issues, and you will connect the theories and practice of real estate to a range of real-life case studies, helping you understand the complex world of property.</p> <p>We will prepare you for a career in real estate, developing your collaborative skills and ensuring you are not only able to practise effectively within the global real estate industry, but that you are also sensitive to the needs of the diverse cultures that you come into contact with in your work.</p> <p>Especially relevant for the would-be chartered surveyor, this course offers a detailed study of the built environment alongside an expert analysis of the acquisition, disposal, management and valuation of land and buildings.</p> <p>Benefitting from our staff's close links with industry, the course thoroughly prepares you for the enormously varied work of a general practice surveyor.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 3
