Course Summary Information			
1	Course Title	BA (Hons) Interior Architecture and Design with Foundation Year	
2	BCU Course Code	UCAS Code	US0820F	W25F
3	Awarding Institution		Birmingham City University	
4	Teaching Institution(s) (if different from point 3)			
5	Professional Statutory or Regulatory Body (PSRB) accreditation (if applicable)			

6	Course Description
	Do you want to learn how to transform spaces? This innovative Interior Architecture and Design degree course covers a broad range of design possibilities, ranging from reordering to transforming space. Situated within Birmingham School of Architecture and Design, our course will provide you with the facilities and education that you'll need to succeed within the industry, as well as excellent opportunities for interdisciplinary collaboration and networking with industry partners. **About foundation courses** This four year programme has been specifically designed to allow students who do not initially meet the entry requirements for a three year degree, to undertake additional level 3 study designed to ensure they are successful on their chosen degree programme. After successful completion of your foundation year, you will have the flexibility to switch (should you wish to change direction) onto a number of related undergraduate degree programmes within Birmingham School of Architecture and Design. **What's covered in the course?** Our BA (Hons) Interior Architecture and Design course provides you with the skills to transform or give new life to spaces, as well as teaching you how to plan and design creative interiors. You will look at hierarchies and relationships between different spaces, describing these relationships in new ways. This industry-aligned degree course offers you the opportunity to study and practise the adaption and re-use of space within new and existing building stock, while also addressing aesthetics, human needs, materiality and more, as well as the ephemeral qualities of atmosphere, character, colour, light and shade. Alongside the regeneration of existing space, you will discover new interior environments, in a broad range of industry sectors, such as hospitality, retail, leisure and residential, using an experimental approach to design to develop the refined techniques required for effective space planning, conceptual design, development, visualisation and the refurbishment of space.

10	**Entry Requirements**
	The admission requirements for this course are stated on the course page of the BCU website at https://www.bcu.ac.uk/, or may be found by searching for the course entry profile located on the UCAS website.

11	**Course Learning Outcomes**	
	Knowledge & Understanding	
1	Demonstrate a breadth of knowledge in relation to the field of interior architecture and design in a national and global context and beyond disciplinary boundaries.
2	Be aware of personal responsibility and professional codes of conduct and incorporate a critical ethical dimension into a major piece of work.
3	Collaborate using a broad range of working strategies.
	Cognitive & Intellectual Skills	
4	Identify and define complex problems and apply appropriate knowledge and skills to a solution.
5	Exploit entrepreneurial and employability opportunities through both internal and external collaborations in both national and international environments.
6	Apply intellectual thinking and academic skills with an integrated approach to global history, theory and practice.

7	Exercise judgment and diagnostic skills in evaluating own work and that of others.
	Practical & Professional Skills
8	Identify and creatively solve design problems, generating effective solutions to their specialism, cultural specifications, or within an interdisciplinary context through the medium of design communication.
9	Develop design concepts, communication, drawing, making, and visualization.
10	Apply technical skills and knowledge of professional practice of Interior Architecture and Design.
11	Apply critical skills to challenge concepts related to contemporary 'interior architecture and design'.
	Key Transferable Skills
12	Engage in self-directed study of a programme, including employability skills such as workload management
13	Communicate effectively using a variety of media which are appropriate to context and intended audience.
14	Demonstrate confidence and independence in relation to all aspects of practice and theory in preparation for their potential careers and life- long learning.
15	Develop professional practice in an international environment building awareness of different cultural identities.

12	**Course Requirements**

12a	**Level 3:**

In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):

Module Code	Module Name	Credit Value
ARC3000	Communication Skills	20
ARC3001	Design Disciplines	20
ARC3002	Design Techniques	20
ARC3003	Place, Space and Objects	20
ARC3004	Presentation Techniques	20
ARC3005	Professional and Academic Development	20

Level 4:

In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):

Module Code	Module Name	Credit Value
ARC4026	Twentieth Century Design Cultures	20
ARC4023	Re-ordering space	20
ARC4022	Manipulating Space	20
ARC4025	Design Devices	20
ARC4024	Transforming Space 1	40

Level 5:

In order to complete this course a student must successfully complete all the following CORE modules (totalling 100 credits):

Module Code	Module Name	Credit Value
ARC5039	Interior Strategies	40
ARC5036	Design Communication	20
ARC5037	Transforming Space 2	40

In order to complete this course a student must successfully complete at least 20 credits from the following list of OPTIONAL modules:

Module Code	Module Name	Credit Value
LAN5014	Praxis (Work Placement)	20
ADM5006	Collaborative Practice	20
ADM5001	Live Project	20

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 3

Workload
