6	Course Description
	<p>Habilitation workers are specialists in the practical and emotional aspects of visual impairment for children and young people. This BSc (Hons) Habilitation Work course is designed to provide rehabilitation workers with the knowledge and skills to enable children and young people to become as independent as possible, in relation to practical life skills.</p> <p>Birmingham City University is currently the only university to offer a Habilitation course to qualified Rehabilitation Workers in the United Kingdom.</p> <p>What's covered in the course?</p> <p>Working with children and young people differs greatly from working with adults with a visual impairment, as they are generally learning skills for the first time, not re-learning a task that they already know and understand.</p> <p>You will explore key issues of child development, in relation to understanding the medical and functional implications of children growing up with a visual impairment.</p> <p>The course is a blend of face-to-face teaching, supported with considerable interactive online materials and resources through the Universities Virtual Learning Environment - Moodle. Practice competencies will need to be demonstrated through a dedicated 20 day habilitation practice placement.</p> <p>Executive members of Habilitation VI UK have been involved with the design and writing of the course and they will deliver the majority of face-to-face lectures.</p> <p>Skills and simulation workshops will encourage you to consider key issues when working in habilitation work practice, and we can offer you a wide range of placement opportunities in a large number of educational settings who support children and young people with a visual impairment.</p> <p>Successful completion of this qualification (together with your original Rehabilitation Work qualification) will enable you to apply for registration with Habilitation VI UK as a registered qualified specialist Habilitation Practitioner. This will also provide you with dual qualification status and the ability to work with individuals of all ages.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

Level 6

Workload

% time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	102
Directed Learning	549
Private Study	549
Total Hours	1200

Balance of Assessment

Assessment Mode	Percentage
Coursework	50%
