6	Course Description (Marketing text for website)
	<p>The BSc (Honours) Accountancy degree at Birmingham City Business School will equip you with the skills and knowledge that you will need to become a professional accountant. The course provides a valuable insight into the worlds of accountancy practice, commerce and industry, underpinned by principles of good governance and ethical decision-making.</p> <p>Delivery of the course is flexible and includes a blend of lectures, workshops, field trips and online learning. The modules, which feed into the course, are broad, covers key current topics such as Sustainable Development Goals (SDGs) and help you to appreciate accountancy from a range of perspectives. Ultimately, decision making in accountancy, calls for one to exercise judgement and intuition and this course helps you to strengthen that judgement.</p> <p>This will prepare you for a long-term financial career as an accountant, allowing you to progress in many financial and related roles as well as the accounting profession. We create graduates who possess a global outlook, with the conceptual and applied knowledge in the field of accounting that will enable them to make a positive impact on society.</p> <p>This course has been designed to achieve maximum available exemptions from the major professional accounting bodies, including the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants in England and Wales (ICAEW) and the Chartered Institute of Management Accountants (CIMA). The exemptions granted by these bodies will enable you to fast-track your career to become a professional accountant on graduation.</p> <p>What's covered in the course?</p> <p>This course offers an accounting curriculum that is up to date, vocationally relevant, challenging and reflects the complex and challenging nature of the accounting and business environment.</p> <p>You will build expertise in areas including financial and management accounting, corporate finance, international accounting and finance issues, data analysis and business technology. You</p>

	<p>will have the opportunity to use software relevant to the modern business environment, equipping you with the skills and experience sought by employers.</p> <p>You will develop scholarly attributes, becoming an independent learner with the ability to critically evaluate data and evidence, draw reasoned conclusions and communicate effectively in a professional manner.</p> <p>With our practice-based approach to teaching, you will learn from professionally qualified academics with direct experience of the industry, and research-active academics, whose research underpins and informs our approach to teaching.</p> <p>To give you first-hand experience of working in the accounting sector, you will be actively supported and encouraged to undertake an additional professional placement year. This time spent in the industry will empower you to put your learning into practice and develop your commercial acumen and professional skills, and is highly prized and sought after by graduate employers. Our students have worked for industry leading accountancy practices including PwC and EY, as well as for organisations such as the NHS, IBM and Vodafone.</p> <p>The international focus of the course is derived through a variety of means including the study of international accounting standards, student body, the teaching team and the use of international teaching materials. Moreover, students can choose to spend a full semester studying their modules overseas at a partner institution.</p> <p>This course shares a common first year with other accounting courses within the Business School, with full transferability between courses at the end of the first year.</p>
