

## Course Specification

Course Summary Information			
1	<b>Course Title</b>		BSc (Hons) Visual Effects
2	<b>BCU Course Code</b>	<b>UCAS Code</b>	US0946 1018
3	<b>Awarding Institution</b>		Birmingham City University
4	<b>Teaching Institution(s)</b> (if different from point 3)		
5	<b>Professional Statutory or Regulatory Body (PSRB) accreditation</b> (if applicable)		

6	Course Description
	<p>Our BSc (Hons) Visual Effects course will develop your technical, creative and production skills, related to visual effects production. The course will prepare you to pursue careers in a range of roles within visual effects and other innovative industries utilising computer graphics.</p> <p>You will have access to a variety of high quality facilities including: a range of industry standard software, high specification computers, cloud-based rendering facilities, a Vicon motion capture studio, one of the largest fixed green screen studios in the UK, a Milo motion control system, a variety of camera and lighting equipment and excellent learning facilities with access to substantial library open 24 hours and a variety on-line resources.</p> <p>The course is delivered by a highly skilled and experienced course team, with a range of relevant industrial and academic experience, who constantly engage with industry and update their skills, to ensure the course remains up to date.</p> <p>To ensure that you are equipped and ready to engage with industry our tutoring programme and Graduate+ scheme will provide support and guidance through-out your educational journey to equip you with professional skills and prepare you for industry. The course aims to produce versatile, adaptable graduates with the fusion of technical and creative skills that industry is looking for.</p> <p><b>What's covered in the course?</b></p> <p>You will learn all aspects of visual effects production including: shooting video, computer modelling, computer animation, matchmoving, and compositing. You will use these skills to produce digital elements such as creatures and environments, then combine them with live action video to produce convincing visual effects shots.</p> <p>As a Bachelor of Science, course there is an emphasis on Technical Director (TD) roles such as: Matchmoving, Rigging, Dynamic Simulations, Motion Capture and Python/Pipeline Development, which are in particular demand within the visual effects industry. The teaching of technical skills is underpinned with a knowledge of fundamental concepts and use of industry tools and practice.</p>

	<p>To help you engage with industry, guest speakers are invited to come and share their expertise. The course also includes organised excursions such as trips to conferences or industrial visits. Previous examples include the London VFX Festival, Framestore, Double Negative, Cinesite, Industrial Light and Magic, and The Mill.</p> <p>During the course, you will do a mixture of ‘hands on’ productions and technical investigations, which will teach you the practice, process, craft and technology of visual effects. These activities will help you become a proactive learner able to explore knowledge, implement best practice and critically evaluate the results of your work.</p> <p>You will get the opportunity to work collaboratively with students from related disciplines such as games and film. This will allow you to broaden your horizons and help you understand how your visual effects and computer graphics skills can fit into other existing and emerging industries.</p>

<b>7</b>	<b>Course Awards</b>		
<b>7a</b>	<b>Name of Final Award</b>	<b>Level</b>	<b>Credits Awarded</b>
	Bachelor of Science with Honours Visual Effects	6	360
	Bachelor of Science with Honours Visual Effects with Professional Placement Year	6	480
<b>7b</b>	<b>Exit Awards and Credits Awarded</b>		
	Certificate of Higher Education Visual Effects	4	120
	Diploma of Higher Education Visual Effects	5	240
	Bachelor of Science Visual Effects	6	300

<b>8</b>	<b>Derogation from the University Regulations</b>
	Not applicable.

<b>9</b>	<b>Delivery Patterns</b>			
	<b>Mode(s) of Study</b>	<b>Location(s) of Study</b>	<b>Duration of Study</b>	<b>Code(s)</b>
	Full Time	City Centre	3 years	US0946
	with Professional Placement Year	City Centre	4 years	US1108

10	Entry Requirements	
	<b>Home:</b>	<p>GCSE at Grade 4 (C) or above in English Language and Mathematics. Equivalent qualifications will be accepted.</p> <p>BBB or 120 UCAS tariff points. It is beneficial that at least one A level or diploma is from a technology, mathematics, science or computing related subject.</p> <p>Other qualifications and subject mixes will be considered.</p>
	<b>EU:</b>	IELTS 6.0 overall with 5.5 minimum in all bands
	<b>International:</b>	IELTS 6.0 overall with 5.5 minimum in all bands
	<b>Access:</b>	<p>60 credits overall. Minimum of 45 credits at level 3. The remaining 15 credits can be taken either at level 2 or 3.</p> <p>Must be from Technology, Science, or Computing related subjects.</p> <p>A minimum of 12 credits achieved from any Technology Units awarded at Merit or Distinction.</p>

<b>11</b>	<b>Course Learning Outcomes</b>
	<b>Knowledge and Understanding</b>
<b>KU1</b>	Explain and interpret key principles and concepts underpinning visual effects production workflows and tools, relating them to visual effects disciplines.
<b>KU2</b>	Relate key concepts and theories around physics, movement, geometry and image manipulation to the production of visual effects and computer graphics.
<b>KU3</b>	Discuss tools, techniques and approaches relating to technical aspects visual effects production such as: matchmoving; dynamic simulations and rigging, in a knowledgeable and informed manner.
<b>KU4</b>	Relate management, organisational and business theories to the process of producing visual effects and wider career development.
	<b>Cognitive and Intellectual Skills</b>
<b>IS1</b>	Design and implement bespoke approaches and solutions, to producing film visual effects.
<b>IS2</b>	Assimilate, interpret and analyse information from a wide variety of research sources, constructing effective arguments and expressing justified conclusions.
<b>IS3</b>	Analyse and deconstruct a visual effects shot breaking it down into logical components.
<b>IS4</b>	Be able to critically evaluate and reflect on their own work and the methods used, then independently develop their knowledge and skills in response.
	<b>Practical and Professional Skills</b>
<b>PS1</b>	Use industry standard approaches to planning and organising productions such as: group/collaborative work; regular production meetings; implementing and working within production workflows or pipelines and taking iterative or progressive approaches to production development.
<b>PS2</b>	Utilise a range of industry standard tools along with a fusion of creative and technical skills to produce 3D models, film visual effects and computer animations, incorporating realistic movement, lighting and textures.
<b>PS3</b>	Utilise testing methodologies to objectively measure and compare production approaches and their output.
<b>PS4</b>	Effectively and safely use of a variety of hardware and software tools, in a highly competent and ethical manner.
	<b>Key Transferable Skills</b>
<b>TS1</b>	Demonstrate and use technical, research, analytical, planning, design and organisational skills, which are highly transferable and can be used in a wide variety of disciplines.
<b>TS2</b>	In co-operation with others, plan and undertake tasks and work effectively in a multi-disciplinary team of creative, technical and organizational production roles.
<b>TS3</b>	Communicate effectively in writing and presentations to specialist and non-specialist audiences.
<b>TS4</b>	Relate visual effects production skills to practices and tools in variety of media/industries.

**12 Course Requirements**
**12a Level 4:**

***In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):***

Module Code	Module Name	Credit Value
DIG4172	Modelling	20
CMP4264	2D Game Programming	20
DIG4149	Acquisition for Visual Effects	20
DIG4174	Texture and Look Development	20
DIG4175	Animation	20
DIG4171	Matchmoving	20

**Level 5:**

***In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):***

Module Code	Module Name	Credit Value
DIG5131	Animation	20
DIG5123	Visual Effects Tools	20
DIG5132	Compositing	20
DIG5133	Dynamic Effects and Simulations	20
DIG5129	Research and Testing Methods	20
DIG5116	Collaborative Practice	20

**Professional Placement Year (optional)**

***In order to qualify for the award of Bachelor of Science with Honours Visual Effects with Professional Placement Year, a student must successfully complete all of the Level 6 modules listed below as well as the following Level 5 module:***

Module Code	Module Name	Credit Value
PPY5004	Professional Placement	120

**Level 6:**

***In order to complete this course a student must successfully complete all the following CORE modules (totalling 120 credits):***

Module Code	Module Name	Credit Value
DIG6114	Production Project	40
DIG6200	Individual Honours Project	40
DIG6208	Virtual Production	20
DIG6207	Professional Futures	20

**12b Structure Diagram**

Semester	Level 4 - Year 1		
1	Modelling 20 Credits	2D Game Programming 20 Credits	Acquisition for Visual Effects 20 Credits
2	Texture and Look Development 20 Credits	Animation 20 Credits	Matchmoving 20 Credits
Level 5 – Year 2			
1	Animation 20 Credits	Dynamics Effects and Simulations 20 Credits	Compositing 20 Credits
2	Visual Effects Tools 20 Credits	Research and Testing Methods 20 Credits	Collaborative Practice 20 Credits
Professional Placement – Year 3 (optional)			
Professional Placement module 120 credits			
Level 6 – Year 4			
1	Production Project 40 Credits		Individual Honours Project 40 Credits
2	Virtual Production 20 Credits	Professional Futures 20 Credits	

### 13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.

#### Level 4

##### Workload

##### 24% time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	288 (Classes) + 26 Hours (Tutoring) = 314
Directed Learning	318
Private Study	594
<b>Total Hours</b>	1226

##### Balance of Assessment

Assessment Mode	Percentage
Coursework	100%
Exam	0%
In-Person	0%

#### Level 5

##### Workload

##### 24% time spent in timetabled teaching and learning activity

Activity	Number of Hours
Scheduled Learning	288 (Classes) + 26 Hours (Tutoring) = 314
Directed Learning	296
Private Study	616
<b>Total Hours</b>	1226

**Balance of Assessment**

<b>Assessment Mode</b>	<b>Percentage</b>
Coursework	100%
Exam	0%
In-Person	0%

**Level 6**
**Workload**

**20% time spent in timetabled teaching and learning activity**

<b>Activity</b>	<b>Number of Hours</b>
Scheduled Learning	222 (Classes) + 26 Hours (Tutoring) = 248
Directed Learning	228
Private Study	750
<b>Total Hours</b>	1226

**Balance of Assessment**

<b>Assessment Mode</b>	<b>Percentage</b>
Coursework	75%
Exam	0%
In-Person	25%
