6	Course Description
	<p>The BSc (Honours) Accounting with Business degree at Birmingham City Business School will provide you with the skills, knowledge and expertise that you need to make an impact across all sectors of the global business environment. We equip graduates with the skills and attributes that will allow them to become future organisational decision makers in the world of business.</p> <p>Completion of this course can give you the opportunity to gain accreditation from the Chartered Management Institute (CMI) and the possibility of gaining exemptions from the professional qualifications offered by the major accounting bodies, including the Association of Chartered Certified Accountants (ACCA), the Institute of Chartered Accountants in England and Wales (ICAEW) and the Chartered Institute of Management Accountants (CIMA).</p> <p>What's covered in the course?</p> <p>This course will maintain the focus of accounting but will also provide an understanding of the wider context in which accounting operates within the global business world. It will offer a curriculum that is up to date, vocationally relevant, challenging and reflects the complex and challenging nature of the accounting and business environment.</p> <p>As you progress, you will be given the opportunity to become a more effective and creative problem solver and develop a set of graduate skills which will encourage you to become enterprising and employable.</p> <p>You will gain expertise in areas including financial accounting, management accounting, entrepreneurial finance, business operations, international business, e-business and leadership. You will have the opportunity to use software relevant to the modern business environment, equipping you with the skills and experience sought by employers. You will develop scholarly attributes, becoming an independent learner with the ability to critically evaluate data and evidence, draw reasoned conclusions and communicate effectively in a professional manner.</p>

	<p>With our practice-based approach to teaching, you will learn from professionally qualified academics with a wealth of industry experience, and research active academics whose research underpins and informs our approach to teaching.</p> <p>You will be actively supported and encouraged to undertake an additional professional placement year, providing the opportunity to improve your employability skills. Our students have worked for organisations such as IBM, NHS, Worcester Bosch, Airbus and Vodafone.</p> <p>The international focus of the course is derived through a variety of means including the study of international accounting standards, student body, the teaching team and the use of international teaching materials. Moreover, students can choose to spend a full semester studying their modules overseas at a partner institution.</p> <p>This course shares a common first year with other accounting courses within the Business School with full transferability between courses at the end of the first year.</p>

13 Overall Student Workload and Balance of Assessment

Overall student *workload* consists of class contact hours, independent learning and assessment activity, with each credit taken equating to a total study time of around 10 hours. While actual contact hours may depend on the optional modules selected, the following information gives an indication of how much time students will need to allocate to different activities at each level of the course.

- *Scheduled Learning* includes lectures, practical classes and workshops, contact time specified in timetable
- *Directed Learning* includes placements, work-based learning, external visits, on-line activity, Graduate+, peer learning
- *Private Study* includes preparation for exams

The *balance of assessment* by mode of assessment (e.g. coursework, exam and in-person) depends to some extent on the optional modules chosen by students. The approximate percentage of the course assessed by coursework, exam and in-person is shown below.
